Nursery NEWSLETTER

Dear Parents and Carers,

A huge well done to our Nursery and Preschool children for raising £1016.84 during our sponsored activities week! The children took part in a fantastic range of challenges, from an obstacle course in Preschool to a Bikeability balance bike challenge in Nursery. This money will go toward exciting new playground equipment across the entire setting. Thank you for your support.

Due to Processionary Moths nesting in our Forest School oak tree, we unfortunately had to cancel this week's Forest School sessions. The tree has now been successfully treated and the area is safe for use. Next week, Nursery Forest School will resume with a forest fire theme. Every child will get the opportunity to work 1:1 with Kate and toast a crumpet over the open fire.

With temperatures set to soar above 30 degrees next week, we want to ensure all the children stay safe and comfortable. Please send your child to school in lightweight, sun-suitable clothing and footwear. Shorts, t-shirts with shoulder cover and Velcro trainers are ideal, as they offer sun protection while keeping children safe for climbing. We will have plenty of water play opportunities to help everyone cool down, and fresh drinks will be constantly available. Please rest assured that we are monitoring the heat closely and keep the children inside if it becomes too hot in the garden. If we feel the children are struggling, we may message parents with the option to collect them early.

Have a lovely weekend and enjoy the sun.

Margaret Stocks
